Door County Treatment Court Steering Committee Minutes

(A Subcommittee of the Criminal Justice Collaborating Council Committee)

Meeting held Thursday, July 28, 2022

Held at the Door County Justice Center

Note: These minutes are subject to review and approval of the Treatment Court Steering Committee

1. **Honorable Judge David L. Weber called the meeting to order at 12:06 p.m.**
2. **Present:** Amy Lehman, Eric Habetler, Lisa Barnaby, Joe Krebsbach, District Attorney Colleen Nordin, Honorable Judge David L. Weber, Kim Bridenhagen, Sara Siefert, Shannon Viel, Sheriff Tammy Sternard, and Dr. Steven Seyfer.
3. **Adopt Agenda for this meeting:** Motion by J. Krebsbach, seconded by S. Seyfer to adopt the agenda. Motion carried by unanimous voice vote.
4. **Approve Minutes from Last meeting: May 26, 2022**
Motion by C. Nordin, seconded by S. Siefert to approve minutes. Motion carried by unanimous voice vote.
5. **Old Business:**
 - a. **Legal status of Treatment Court Clients:**
Committee discussed that it should be case by case but that individuals should not be excluded based solely on legal status. Court Services Coordinator has reached out to the State for guidance. Committee agreed to put on to next month's agenda
 - b. **Committee Pictures:**
Idea proposed by D. Weber. Court Services Coordinator to schedule and notify committee of timing.
6. **New Business:**
 - a. **Referral Process and Client Motivation at Initial Referral:**
Committee discussed importance of subjective versus objective criteria to avoid any implicit bias. Committee further discussed target population and the stages of change model of treatment. Committee agreed to continue to evaluate our referral process.
 - b. **Handling Court Visitors and Maintaining Confidentiality:**
Committee agreed that unable to have a closed court. D. Weber will limit HIPPA information reviewed with clients and A. Lehman would have conversations with clients to make them aware of open court room and sharing information.
 - c. **Other Updates:**
J. Krebsbach informed committee that pre-application for TAD funding will be submitted with request for additional funds for our Treatment Court. Additionally, J. Krebsbach is looking at 2 housing opportunities. S. Seyfer recommended that D. Weber discuss productivity and law-abiding behavior in addition to discussion of recovery with participants as these are statements from the Treatment Court Mission Statement.
7. **Matters to be placed on future agenda:**
Legal status of the Treatment Court clients
8. **Next Meeting Date:** August 25, 2022 at 12:00pm.
9. **Adjourn:** Motion by J. Krebsbach, second by S. Seyfer to adjourn. Motion carried by unanimous voice vote. Meeting adjourned at 12:54 p.m.

Respectfully submitted by Kelsey Christensen, Court Services Coordinator

Door County Treatment Court Steering Committee Minutes

(A Subcommittee of the Criminal Justice Collaborating Council Committee)

Meeting held Thursday, October 27, 2022

Held at the Door County Justice Center

Note: These minutes are subject to review and approval of the Treatment Court Steering Committee

1. **Kelsey Christensen called the meeting to order at 12:06 p.m.**
2. **Present:** Amy Lehman, Eric Habetler, Kelsey Christensen, Joe Krebsbach, District Attorney Colleen Nordin, Honorable Judge David L. Weber, Sara Siefert, Donna Altepeter, Shannon Viel, and Sheriff Tammy Sternard.
3. **Adopt Agenda for this meeting:** Motion by J. Krebsbach, seconded by D. Weber to adopt the agenda. Motion carried by unanimous voice vote.
4. **Approve Minutes from Last meeting: July 28, 2022**
To be approved at November meeting.
5. **Old Business:**
 - a. **Legal status of Treatment Court Clients:**
Committee discussed that it should be case by case but that individuals should not be excluded based solely on legal status. Committee determined no language needed.
6. **New Business:**
 - a. **Treatment Court Participant Recovery Support Meeting:**
Committee discussed the positive and negatives of the Treatment Court supporting the participants to do a meeting at the Justice Center. Team determined that at this time they do not want to support the meeting being held at the Justice Center.
 - b. **Requirement for Community Service for Court Participants:**
D. Altepeter brought up the importance of community service as a way for the client to give back to the community. Committee weighed the pros and cons of making it a requirement or participating in community service as a group activity. Committee determined specific language should be used when requiring community service as a sanction. A. Lehman and K. Christensen to do more research for the committee on language and group activities.
 - c. **Presenting Treatment Court to Local Employers:**
Committee agreed that reaching out to local employee organizations would be beneficial. K. Christensen and D. Weber to reach out to organizations to set up meeting times.
 - d. **Visit to Outagamie Treatment Court:**
A. Lehman to send a Doodle Poll to committee with suggested dates once she determines Outagamie schedule.
 - e. **Professional Photographs November 7, 2022 at 8am:**
K. Christensen reminded team to meet in the Jury Assembly Room at 8am for pictures and donuts on Monday.
 - f. **Other Treatment Court updates:**
J. Krebsbach updated the committee on status of sober living purchase. Committee discussed the UAs at the jail and the process. K. Christensen and T. Sternard to follow up with the Jail LT.
7. **Next Meeting Date:** November 17, 2022 at 12:00pm.
8. **Adjourn:** Motion by D. Weber, second by J. Krebsbach to adjourn. Motion carried by unanimous voice vote. Meeting adjourned at 1:16 p.m.

Respectfully submitted by Kelsey Christensen, Court Services Coordinator

PROS AND CONS OF VARIOUS DRUG TESTING METHODS

Urine Drug Test

Pros

- Highest assurance of reliable results.
- Least expensive.
- Most flexibility in testing different drugs, including alcohol and nicotine.
- Most likely of all drug-testing methods to withstand legal challenge.
- Most common specimen collected.

Cons

- Specimen can be adulterated, substituted, or diluted.
- Must have facilities to accommodate proper collection protocols.
- Test sometimes viewed as invasive or embarrassing.
- Biological hazard for specimen handling and shipping to lab.
- Must have same gender collector.

Detection Window

- Typically 5 to 7 days.

Hair Drug Test

Pros

- Longer window of detection.
- Greater stability (does not deteriorate).
- Can measure chronic drug use.
- Convenient shipping and storage (no need to refrigerate).
- Collection procedure not considered invasive or embarrassing.
- More difficult to adulterate than urine.
- Detects alcohol/cocaine combination use.
- Very difficult to adulterate.

Cons

- More expensive.
- Test usually limited to basic 5-drug panel.
- Will not detect very recent drug use (1 to 7 days prior to test).

Detection Window

- Depends on the length of hair in the sample. Hair grows about a half-inch per month, so a 1-inch specimen would show a 3-month history.

Oral Fluids (Saliva) Drug Test.

Pros

- Sample obtained under direct observation.
- Minimal risk of tampering.
- Non-invasive.
- Can detect alcohol use.
- Samples can be collected easily in virtually any environment.
- Reflects recent drug use.

Cons

- Drugs and drug metabolites do not remain in oral fluids as long as they do in urine.
- Less efficient than other testing methods in detecting marijuana use.

Detection Window

- Approximately 10 to 24 hours.

Sweat Patch

Pros

- Non-invasive.
 - Variable removal date (generally 1 to 7 days).
 - Quick application and removal.
 - Longer window of detection than urine.
 - No sample substitution possible.

Cons

- Limited number of labs able to process results.
- People with skin eruptions, excessive hair, or cuts and abrasions cannot wear the patch.
- Passive exposure to drugs may contaminate patch and affect results.

Detection Window

- Patch retains evidence of drug use for at least 7 days, and can detect even low levels of drugs 2 to 5 hours after last use.

Finger Nails Clippings Test

Pros

- Very difficult to adulterate.
- Each collection is done under direct observation.
- Longer use/abuse history reflected.
- Less frequent testing due to the detection time covered.
- Facility accommodations for the specimen is easy.
- Alternative specimen to body hair, in the event there is not enough hair available for collection.

Cons

- More expensive than urine testing.
- Ten (10) nails will be clipped and their surfaces filed.
- Nails take 10 - 14 days to grow out from nail bed from time of ingestion.

Detection Window

- 4 - 6 MONTHS.
